TAKING UP THE CASES OF SUSPENDED MINIS-

TERS-CHARGES AGAINST ANOTHER MAN. The New-York Presbytery of the Reformed Prebyterian Church held its semi-annual meeting yester day in the Third Reformed Presbyterian Church, No. eas West Twenty-third-st. The New-York Presbytery exercises Jurisdiction over Massachusetts and the stern part of New-York State, and controls sixteen

The business of the Presbytery was begun in the by reconfirming last year's officers, who the Rev. Dr. Baylis, moderator, the Rev. S. G. shaw, clerk, and the Rev. J. C. K. Milligan, assistant Those present were the Rev. Messrs. Finley M J. S. Carson, R. M. Sommerville, James Ken on Graham, J. W. F. Carlisle, J. R. Thomp T. A. Rusk, J. B. Williams. The lay delegate William Colwell, William Ross, Andrew Gil-James Mitcl-til, James Stevenson, David, H. O'Neill, W. C. Doig, Alexander McNeal, Robert McAfee, James Warnock, David Mehaffey, Pro or R. Frazier and Dr. W. C. Kennedy.

Soon after the meeting opened it became eviden olesome subjects would come up and that embers had prepared for them with a plan of rials, one from the First New-York, one York, and one from the Brooklyn congregation, strongly arging the Synod to rescind its action of last December suspending seven ministers for the part they took the conference which was held in Pittsburg on July 22 and 23, 1890. Those present at that conference maintained that they represented five States and one Presbyteries in the United States, and they formulated a platform, among other things asserting that: first, "the terms of communion should be limited plain requirements of the Scriptures," and second that persons who make a credble profession of Christ should be received into church membership on the acstance of our Testimony and Terms of Communi of political dissent or in other questions." Four other statements were contained in that platform, but two mentioned are the ones which caused the sion of the seven ministers and which will serious discussion in the Synod to be Pittsburg beginning to-day. Strict church hold that one great and important law e Reformed Presbyterian Church is the public sion, vow and covenant which make its nisters and elders dissent from the Constitution of the tes because the Nation refuses to own its they "refuse to incorporate by any asecured." In the New-York Presbytery the rance of feeling seems to be against this ruling Church, and if it is sustained by the Synod, ministers will leave the Church rather than y it. The memorials were laid on the table by sent, and then came the sensation of th J. C. K. Mfiligan by the Rev. Finley M. Foster. harge was the same as that against the seven minister

the afternoon the discussion over this libel be heated, and it was soon seen that the Rev. Finley M. Foster was almost without support. By some motion to investigate the Rev. J. C. K. Another resolution was then charging the Rev. J. S. Carson and the . J. C. K. Milligan with having been active in the Pittsburg conference in July and with holding the liefs expressed in the platform, and referring their case to the Committee of Discipline for Investigation motion was pushed by the friends of the two ministers, at their express desire, as they want the

The Presbytery adjourned till the last Tuesday in October, when the meeting will be held in the Fourth Reformed Presbyterian Church of New-York. Almost all the delegates started for Pittsburg last night.

## A TARIFF THAT MAKES MEN DEAR.

EX-CONGRESSMAN HORR DISCUSSES THE GEN ERAL PEATURES OF PROTECTION.

enrolled Republicans of the HIId Assembly District spent a most enjoyable evening last night ing to a speech by ex-Congressman Roswell G. Horr on the tariff. Charles H. Murray presided, and introduced Mr. Horr as one of the most foremost debaters of the Republican party. Its features, illustrating his arguments with witty and pertinent sayings. "The great superiority of the tariff," he said, "is the fact that while it makes goods it makes men dear. It does not cheapen nity. I am willing to say that if we don't make icles cheaper in the end under the tariff, that Free ders are right. If the duty on salt has cheapened it, why, hang the Free Traders' theory. In 1860 we found salt on the free list where the Democrats had put it. We made little salt then, and were exporting it. But a duty of 64 cents a barrel was put on salt, and now we make 4,000,000 barrels a year. Now if Free Traders were right salt ought to have gone up 64 cents a barrel. But it didn't, and in 1870 we split the duty to 32 cents.
"Free Traders say that we don't pay better wages

than Europe does. Then why do immigrants come here! But they say that some do go back. Yes, they go back to bring back their families and friends here Free Traders used to say that the sait we made was not fit to use. Now they say we can't grow flax and can't make tin-plates. They also used to say that we could not make plate-glass because the sand was discoloring. But I never could train with people who abused people who tried to build up the country. See how they are vituperating men who are trying to establish the tin-plate industry. Things are cheaper than they were under the free-trade times, and we are making salt, plate-glass and other things, and we are going to make tin-plate. Two weeks ago twenty-six firms who are getting ready to make tin-plate held a convention in Cleveland. Four or five of them are already making it. Last year we sent millions of dollars abroad for tin-plate. Would it not be greatly to our honor and credit to keep that money at home!

believe that we will build up the sugar industry under the McKinley law. We pay bounties and we are going to raise beets. We have the soil and the atmosphere. The Free Traders say that there is some-thing wrong in this country, that the Lord is down on But we would not own that, because we don't believe it, and because we like the country. I believe in looking after the interests of the country and protecting it by a tariff which will prevent nations from dumping goods on us that were made by men who were paid by cents instead of by dollars."

At the close of the meeting Mr. Horr was elected a member of the association under a suspension of rules. He intends to live in the HId Assembly District.

# FOR REDISTRICTING THE BAY STATE.

TWO PLANS DISCUSSED BY THE REPUBLICAN CONFERENCE-THE ACTION TAKEN.

Boston, May 26 (Special).-After the adjournment to the House to-day the adjourned conference of the Republicans on the Redistricting bill was called to order. Mr. Sohier, of Beverly, moved that whatever action the conference took should be considered as binding. After much debate the motion was laid on the Then Mr. Wardwell, of Haverhill, for the committee appointed to confer with the House Republicans the Redistricting Committee, made a report recom-

mittee appointed to confer with the House Republicans on the Redistricting Committee, made a report recommending the substitution of a plan which the latter submitted, and which is said to have originated with Congressman Lodge. It gives on the vote of 1886 cleven Republican districts, and on the vote of 1896 six; the pluralities in five of the seven Democratic districts are the 17th and 7th. Mr. Wardwell explained the plans at length, and there was a general comparison of it with that of the Redistricting Committee. Then Mr. Sohler had his motion to make the present of the seven that the original plan had been concerted by Speaker Barrett, that no man should consider himself obliged to vote other than as his conscience should dictate. During the discussion it was asserted that the original plan had been concerted by Speaker Barrett and Mr. Quincy, purely for personal ends; whereupon the speaker declared that any matters he had suggested to the committee had been to protect the interests of his district and the people whom he in part represented, and that he had had no conversation whatever with Mr. Quincy in relation to redistricting until that very afternoon. Mr. Rill, of Paxton, moved as the sense of the conference that the matter of redistricting be referred to the next General Court, and the motion was carried—41 to 33. A motion by Mr. Sohler, that if the House should refuse to refer the matter to the next General Court and the control of the content of the cont

attempt should be made to substitute the Wardwell or Lodge plan, was adopted, and the conference adjourned.

GRADUATED IN CAP AND APRON.

COMMENCEMENT EXERCISES OF THE TRAIN-ING SCHOOL FOR NURSES.

The commencement exercises of the graduating class of the Training School for Nurses connected with the Post-Graduate Medical School and Hospital were held last evening in the lecture-room of the Madison Square Presbyterian Church. Dr. D. B. St. John Roosa presided and Mrs. Granville P. Hawes, president of the board of managers, occupied a seat on the platform at his left. Mrs. Henry W. Cannon, the recording secretary, read a summary of the annual report. By this it was shown that there are sixty pupils in the training school. The number of applicants for admission the last year was 400, and of these twenty-five were re-ceived after a probation of two months. There were 605 calls from private patients, 206 of which were supplied by the school itself and 123 from among the graduates. This was an increase of 102 over last year. This shows that the school was able to respond to only a little more than half the calls. The proceeds from the work for the summer paid expenses and left a balance of \$850. There was paid into the treasury a legacy by Charles F. Da Costa amounting to \$1,000. The report of the treasurer not having yet been sub-mitted, no additional figures were given.

This is the list of graduates: Mrs. Martha Lucas, Miss Martha Stewart, Miss Matilda Cotte, Miss Caroline Robbin, Miss Cecilla Lind, Miss Louise Bower, Miss Ethel Jackson, Miss Emma Welton, Miss Lena Herbert, Miss Esther McConnell, Miss Adelaide Miller, Miss Jennie Duniee, Miss Anna Thompson, Miss Endora Monteith, Miss Castella Froleigh, Miss Clara Stewart,

Miss Lena Cunningham and Miss Emma Block. The valedictorian was Miss Dunlee, and Miss Cotte was class historian. The diplomas were presented

The graduating class and the students attending were dressed in the neat attire associated with their profession, including the cap and the long white apron. Dr. Roosa spoke briefly, reminding them of the duties and the hardships, as well as of the interesting features and the final rewards of the work be-fore them. The Rev. William H. P. Faunce, of the Fifth Avenue Baptist Church, also addressed the class, commending them for their choice of occupation, and pointing to the opportunities afforded for the develop-ment of the noblest qualities of womanhood. There was an abundance of floral tributes for the graduates.

### SEVERAL YARDS MAY OPEN.

LUMBER-DEALERS SAID TO BE GETTING TIRED OF THE BOYCOTT-THE HOUSE-SMITHS' STRIKE.

At the headquarters of the Lumber Trade Association, No. 18 Broadway, yesterday, it was asserted most emphatically that there was no change in the situation, that no members of the association were delivering lumber or were going to open their yards. On the contrary, it was announced that all Brooklyn lumber yards would be formally closed to-day. In spite of this, however, it was asserted by the Board of Walking Delegates that several yards in the city would be opened to-day by dealers who have become tired of fighting for C. L. Bucki & Co., who are agents here for an English syndicate. At Rose Hill Hall, in Second-ave., which is the headquarters of the Lumber Handlers' Union, the striking employes of A. T. Decker, Benedict, McElroy & Fowler, and two or three other firms have been notified to return to work this morning, as the yards will be opened and union wages paid. It was asserted last night that one of the objects of the association in continuing the fight was to "freeze out" the small dealers and form a trust. None of the members of the association could give a satisfactory reason why the lockout was con-tinued, as they know that the Board of Walking Delegates is willing to order the strike to end if the as sociation will take back the union men.

John F. Steeves, a member of the executive com mittee, said yesterday that the association was prepared to continue the lockout for three months if necessary, and that there were thousands pay those members who could not afford to lose. A. T. Decker sent a long statement to the association yesterday in regard to its action in repudiating the agreehad made with the walking delegates to settle the trouble.

The Iron Manufacturers' Association brought a num ber of housesmifhs from Philadelphia yesterday and put them to work, but the walking delegates persuaded most of them to return home. A strike of over 100 men was ordered on the building at Eighty-second-st. and Ninth-ave, yesterday to force the discharge of several non-union housesmiths.

# A BARE GOES ASHORE AND BURNS.

Norfolk, Va., May 26 (Special).-The British bark Whilia, in command of Captain H. Beveridge, from New-York to Savannah in ballast, went ashore one and N. C. near Currituck Sound, last night d fog. The life-saving crew rescued the eleven persons on board just as an overturned lamp caused a blaze which soon swept over the vessel, burning her to the water's edge. Her home port was Yarmouth, N. S., and her owners Black Bros. & Co. She was built in 1870 and was insured for \$3,000.

# MRS. BARNABY'S WILL.

Providence, R. I., May 26.—The will of Mrs. Josephine A. Barnaby was to have come up for probate in the Municipal Court this morning. By agreement the hearing was postponed to June 26, pending proceedings in the case of Colorado agt. Dr. Graves. This is the second will of Mrs. Barnaby.

Poultry And Game.

Idve fowls have ruled about steady all the week prime stock from all points selling at 11c. Spring chickens more pienty and lower: the offerings are largely of small and medium sizes and these are especially dull. Turkeys low. Ducks and greese quiet and in buyers favor.

Western dressed fowls held fairly steady at 10½ file up to the close of last week, but a considerable part of the stock had to go at the inside figure. On Monday receivers tried to raise the price to 11½119c, and made a few sales at the outside figure, but large buyers held off at any compared to the stock had to go at the inside figure, and the ruling price. To-day prime lines are freely offered at 11c and no histher quocation can be given; supply and the ruling price. Spring chickens made further declines last week, but closed firmer, and under light arrivals they are now quite readily salable, prices showing some recovery. Long Island spring ducks in mederate supply and steady. Turkeys quiet. Squabs dull and weaker.

All kinds of fresh killed game birds are in light supply, and under a fair demand prices rule firm for prime quality.

### GRAIN AND PRODUCE MARKETS.

FEATURES OF NEW-YORK DEALINGS. The speculation in wheat was on a fairly large scale esterday, about 10,500,000 bushels changing hands The market was nervous, but extent of the trading. The opening was weaker, and on the news of the increase of 3,300,000 bushels in the amount on passage to Europe, prices declined. The weather reports were favorable to the winter wheat crop, although the spring wheat regions were afflicted by frost. The latter aspect of the weather outlook was ignored, unless it was assumed that the reports of damage were exagerated. Heavy selling by Parifidge & Mitchell was an early feature. A sharp raily was induced in the later dealings by the announcement of the visible supply in England, showing a decrease of 475,000 bushels in spite of the big increase on passage, contributed. The range of July options was from \$1.05.1-4.8\*1.07.5-8. to \$1.05.5-8, these being the two leading months. The final changes were gains of 1-4.8.5-8 cent for the intermediate months, the options at the extreme ends being unchanged. Spot wheat was unsettled, in sympathy with the speculation, but the extreme ends being unchanged. Spot wheat is unsettled, in sympathy with the speculation, but as unsettled, in sympathy with the speculation, but a close was steady. Only small sales were made to illers, but exporters took 200,000 bushels on the spot d for forward delivery.

and for forward delivery.

Corn started out weak, in response to the wheat market, but prices yielded only 1-4#3-8 cent. The report of frost in the growing regions caused an extensive covering of shorts, which developed a searcity of offerings. The result was an advance of 21-8#21-2 cents for the deliveries after May. Spot corn was dull, but strong, and 40,000 bushels were taken by shinners. shippers.
Oats followed corn with a speculative advance of 182 cents. Spot lots were 1-283-4 cent higher, but without feature.
Lard was dull and 486 points higher for the options.

Lard was dull and 486 points higher for the options. There were no sales for export.

The final quotations were as follows:
Wheat—May \$1 12 5.8. June \$1 11 1.4. July \$1 08 5.8. August \$1 05 1.2. September \$1 04 5.8. December \$1 05 5.8. May (1892) \$1 09 1.2.

Corn—May \$66 1.4. June 64 3.4. July 63, August 62 1.4. September 61 5.8 cents.

Outs—May \$52 1.2. June 51, July 50 1.2. August 42 1.2. September 40 1.2 cents.

Lard—July \$67.58 August \$67 71. September \$6 83. 606,721 bushels; oats, 304,038 bushels 979,490 bushels; flour, 15,200 packages.

THE TRADE IN CHICAGO. Chicago, May 26 (Special).-Wheat prices at the close were slightly under last night's. The increase on passage, 3,304,000 bushels, encouraged some selling early. Reports of export business led to considerable buying toward the close. The amount affoat now aggregates 40,000,000 bushels. Home crop prospects continue unimpaired. The best professional prospects continue unimpaired. The best professional opinion here is that foreign advices must come a good deal stronger to prevent a continued decline here. July opened at \$1.00 14, sold between 99.3-8 cents and \$1.00 5-8, and closed at \$1.00 14.8-\$1.00 3-8. The bull party in corn has been threatening for a fortnight to give shorts a twist. Today they put their threat into execution. Wednesday's estimated receipts, 395 cars, showed a heavy dron-down; to-day's arrivals were 100 under the expectation. Samples were strong; manipulation of May was an easy matter. Parmers are likely to be somewhat influenced by the present strength, and to shut off the receipts. The news from the country is to that effect. The crop news has not changed; the prospect for an immense supply next fall is as good as ever; and the fact that the country reserves are a good deal bigger than supposed has been demonstrated. Bull tactics on the tall end of a short crop have heretofore turned out disastronsly. July

sold from 54 1-8 to 56 1-4%56 3-8, and closed at 56 1-47 2 was sold at about 2 1-2c under No. 1, but \$\tilde{a}\$56 3-8 cents. Oats were up 2 cents in sympathy withly corn. July sold from 42 1-2 to 44 7-8, and closed at 44 3-4 cents. Provisions to-day were steadied by the news from the corn crowd. Pork at the close showed 7 1-2 cents advance over last night; lard and ribs, 5 cents. Light hog receipts helped toward the little advance, 110 cars; shipments. The provisions when the corn crowd. Pork at the close showed market, and he did not want anything but ments. Dulinth got 18s cars, and shipped out 18 bush. Receipts, wheat, past twenty-four advance. advance.

## THE PETROLEUM MARKET.

NEWS FROM THE FIELD AND RANGE OF PRICES. There was but little more done in crude certificates yesterday than on Monday. At the Stock Exchange sales of 5,000 barrels were made at 68 cents. The dealings in options at the Consolidated Exchange dealings in options at the Consolidated Exchanges amounted to 22,000 barrels, and after early sales at 67 1-24 67 3-8 cents prices hardened to 68 1-4 cents. The reported intention of Italy to impose an obstructive barrier by duty to the impost of American refined petroleum excited little comment in a speculation so devoid of life and leadership as that of the present. Refined oil ruled unchanged at 7.20 cents for barrels and 8.95 cents in cases. Foreign quotations showed a decline of 1-4 at Antwerp to 16 francs, is remen at 6.40 marks, and London at 5 3-4 pence being unchanged.
